Work Experience

● 2022-2025 | Abcoude, NL - codecapi.nl

Web Developer / Consultant @ Codecapi

Tech Stack: React, React Native, Next.js, Turborepo, NodeJS, Fastify, NeonDB

- Contributed to design and implementation of multiple fullstack product features across web, mobile and API layers.
- Designed API contracts consumed by React and React Native clients.
- Set up a monorepo architecture to consolidate and modernize several internal applications.
- 1.5year enterprise CMS migration within a large multiteam setup.
- Collaborated closely with product owners and designers in large Scrum teams.

● 2022 | Nieuwegein, NL - digitalindividual.dev

Fullstack Developer @ Freelance

Tech Stack: React, Next.js, Apollo Server/Client, Strapi CMS

- Designed and built a complete rental platform for holiday apartments.
- Implemented backend APIs, data models and a custom reservation and availability system.
- Owned the full product lifecycle from requirements through deployment.

● 2021-2022 | Utrecht, NL - iodigital.com/nl/history/one-shoe

Frontend Developer @ OneShoe

Tech Stack: React, Next.js, Apollo GraphQL

- Developed complex admin panels and internal tools used by large clients.
- Worked closely with designers and backend engineers to deliver endtoend features.
- Improved code quality through testing, reviews and shared component libraries.

● 2016-2021 | Vianen, NL - sogeti.nl

Webdeveloper @ Sogeti

Tech Stack: Angular, Node.js, Adonis.js, Ionic, Laravel, Wordpress

- Built and maintained APIs for mobile apps and headless CMS platforms.
- Designed and implemented backend services consumed by web and mobile clients.
- Integrated thirdparty services and payment, auth and data APIs.
- Built internal enterprise applications in large Scrum teams.
- Acted as technical contact for nontechnical stakeholders.

● 2015 | Wormerveer, NL - backbonecompany.com

Frontend Intern @ Backbone Company

Tech Stack: HTML, CSS, SASS, JavaScript, Backbone.js

- Developed and maintained websites and an asset management SaaS platform.

● 2013-2014 | Naarden, NL - iblox.com

Webdesign / Support Intern @ iBlox

Tech Stack: HTML, CSS, JavaScript, Adobe Suite

- Website development, maintenance and customer support.
